May it please your H+ghness,

It has been over a month since i gave your highnes tips on the administration and as I have got more now I must place them before your Highness.

I have come here for the full moon thanksgiving fo r God Nanjundesvara s blessings.While I was travelling an influential missionary of great laerning was my fell low passenger and I drew him into conversation as he was pleased to do so since I was a rendition servant.

FirstMr Visvesvaraya wrote a hot letter to the man ager of Vrittanta Patrike for criticising his stupid budget and the manager wrote in reply to silence him and no more was heard of it.The Capital called the Dewa ns budget a fools budget .It is well worth reading

Secondly,Mr V.Rangasamy iyengar was promised Chattertons place and the Dewan disappointed himby ttrying to get an outside official to put over his head and rank discontent prevails in the service high or low.This outside official it may be said has quite inferior qualifications in that he is not a me chni- cal engineer and is ignorant of local conditions as they now stand.

Thirdly,Dr.Smeeth was quite sick of the dewan and has gone on leave as he could not make him understan d things because he could not understand them.

Fourthly.The dewan was browbeating representatives from Kannambodi for the great injustice done to them and they reported this to the resident who seems to hav e said that the time has not arrived for active interfe rence yet for adopting remedial measures under the trea ty.

FifthlyThe Dewan and Yuvaraja are chummy and they very well know that with the help of the Huzoor secretary they can screw you to any line of policy and and keep uyou entirely in the dark as to real state

of affairs.They Know mr Campbell is indifferent carelessand pliant.Mr campbell was a failure as a private secretary to Havelock and as collector of vizag apatam and he is to be your help.Your highness may well recollect that muhammadans put your ancestors into prisons and usurped the throne and you have a muhammada as your confidant huzoor secretary.You have a christian as assistant secretarywhosefather recommended Mdhava r Rao to be your dewan to get fat appointments for his s sons and bring you into trouble as he brought trouble t to your father in st Johns time.what havocc he did in as superintendent of police everybody knows.Can any one trust a mussalman anda roman catholic who are noted for cunningness and intrigue?In place of one scoundrel raga vendra rao you have now two such and you do not know whe re you are.what can you expect from a duffer like balar raj urs?This great missionary was ridiculing your speech in opening the senate meeting and commented on the men on your staff and in your office as being devoid of character and learning.He also told me you know thier weaknesses and vices but you are afraid to act.I have of ten counselled you to reform yor office yourselfbecause the men will look up to you only and render loyal servi ceand keep only educated mysoreans and transfer awa away the present sychophant duffers and reduce your staf staff by two officers and with the savings you can a have dignified office that is 1 Registrar en(A man who knows the history and administration of mysore,political econ omy,and political science)on 200 or 250,o-Asuperintende nt on 100 or 150(he must also be a B.A.History)1head cl erk on 70-6-100,2accountants each50-5-70,one typist and sshorthand writer50.2clerkson40-4-60 and 2clerkson 30-3-45.The reistrar will always be with you and the r rest you can ask to move with you by turns.Except the l last two clerks who may be matriculates or F.As allmust be B.Aswho will be efficient workers.

Your highness most loyal subject and se
